In order to become Pairing Qualified, An Achiever must have activated a package and have ≥ 50 PV on the left and right side, with at least 1 personally sponsored member who has activated a package. Pairing Bonuses are paid daily as a percentage of a qualified member's lesser leg volume. The percentage earned varies by package and rank. For more information on how to qualify for increased Pairing Bonuses please review the Pairing Bonus table above.

The left and right side **pairing volumes** will accumulate to infinity;

however, when the allowable pairing is reached the excess volume on the lesser side (for that day) subtracts the equivalent volume from the stronger side; thereafter, the leftover volume on the stronger side is carried forward.

PVs for rank advancements, award(s) and/or other incentive(s) DO NOT FLUSH

Monthly reactivation is encouraged but not mandated to earn some bonuses; however, you may only earn 50 percent of the concerned bonuses if you fail/neglect to reactivate your account within a month.
